Advanced Grading

Color Tone

Evaluates subtle undertones that can also be present in colorless-graded diamonds and affect the diamond's overall appearance.

PURE BROWN TINT GREY TINT BLUE TINT

Growth Lines

Assesses internal growth lines formed during crystal growth that can impact brilliance and transparency

NONE SLIGHT MODERATE DISTINCT

Visual Performance

This proprietary VeraLume score is a weighted measure of the factors that define a diamond's beauty

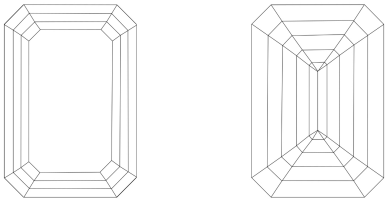

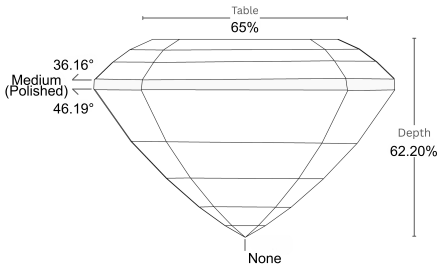

Excellent Very Good Good Fair Poor

100% 89% 84% 79% 74%

94%

Exceptional brilliance and balance, with precise facet patterning, refined color tone, and no visible growth lines.

Faceting Analysis

Facet Design
